

Our Class Trip (Klasse 8)

Monday 02.05.2022

On Monday we got up late, had breakfast and started travelling on the ship. On board we learned about sailing and had a very tasty lunch. The weather was okay but the wind was very weak. We arrived at the port Schleimünde in the afternoon. In Schleimünde we had some free time and a barbeque. After dinner we walked and played games. We then had showers and went to bed.

Tuesday 03.05.2022

Then we had diner and after played game sardines. When we came back to the ship. In the evening we drank hot chocolate and then went to bed. Today is the day when we'll finally arrive in Denmark, to the port in Sonderburg to be precise. We were supposed to get there yesterday, but we decided to stop at port Schleimünde, (which, by the way, is only half of the route) due to the lack of wind.

Today the wind was very strong. After a little while we put up the sails. We were very fast because of the strong wind. The ship heeled a lot. We had to hold the walls of the ship in order not to fall overboard. We travelled like

On Sunday we left Munich. It was 9:30 am when we got onto the train going to Hamburg. It took 7 hours. On the way Jan, Nikola, Moritz and Elmar played Stumble Guys. We arrived in Kiel, took the bus and arrived at the harbour. It was 6:30 pm. We went for a walk in Kiel, ate pizza and met Chantal and Vessel, the owners of our ship called Catherina, and Duncan and Laurie, two English speakers who accompanied us. Before bedtime we did a quiz called Scavenger Hunt, then we went to bed.

this for 5 hours. Some enjoyed it, others not. More than half the class got seasick and had to take medicine. Mrs. Jochum gave tablets to the seasick people and they helped, but they also made people very tired and some went to sleep. After 5 hours the wind stopped. We reached the Danish Sea and a canal. Because of the canal, we had to put down the sails and start the engine. We travelled 2 more hours to the Sonderborg Hafen. In Sonderborg we had 2 hours for sightseeing. When we stopped at the port, we walked around the city, ate ice cream, drank milkshakes, went to the H&M and other shops. At 5 pm we went back to the ship and had delicious pasta with Bolognese sauce cooked by Ms. Jochum. After this we played Sardines on the castle grounds and then went to bed.

Wednesday 04.05.2022

We had breakfast in Sonderborg and then set sail for Damp, but there was no wind so we went by motor for a long leg of the journey. During the trip we played Mexican Train, Uno, Doppel and Schafkopf. We had some English lessons and worked on our projects: magazine, video, All about the Sea and writing the Log Book. When we arrived in Damp we played mini-golf and volleyball. For dinner Iair cooked Mexican. After dinner we were pretty tired and spent the evening playing card games.

Thursday 05.05.2022

On Thursday we woke up in Damp, had breakfast and then went for a bike ride along the Baltic Sea. Since we only had a short distance to travel, we had the chance to buy souvenirs before leaving Damp. Duncan made pancakes for lunch and then we sailed to the bay of Kiel. We anchored in the bay for the last evening and got to kayak around the boat in the evening. We had Thai Curry for dinner.
